EDUCATION

INTERNATIONAL RELATIONS
EDUCATIONAL AND SCIENTIFIC INSTITUTE OF INTERNATIONAL RELATIONS
09/2018 - 06/2022

WORK EXPERIENCE

Trainee Frontend Developer

03/2023 - 08/2023
My first project that I worked on was related to the agricultural sector.
Achievements/Tasks
- I was primarily responsible for front-end development, where I worked on the layout of various components. Additionally, I was involved in creating responsive email templates for communication purposes.

Junior Frontend Developer

08/2023 - Present
Over the past hour, I have been working as a freelance frontend developer.
Achievements/Tasks
- One of my key projects was related to the trading industry. In this project, I utilized technologies such as React and Redux, and integrated with the trading platform's API.
- My role involved developing functionality for data display and analysis from the markets, as well as implementing interactive user interfaces.
- To ensure data storage and processing, I employed a MySQL database and made requests to it through the server's API.

SKILLS

HTML, CSS, JavaScript: Proficient in fundamental web development technologies.

SASS (SCSS): Understanding of the CSS preprocessor for creating convenient and maintainable styles.

React.js and Redux: Experience in building high-quality interactive web applications using these technologies.

TypeScript: Intermediate proficiency in TypeScript, enhancing the development capabilities further.

Backend Development: Working experience with Node.js and MySQL for implementing functionality and data storage.

ORM: Utilizing Object-Relational Mapping (ORM) for convenient database interaction.

I have basic proficiency in working with Git. I am comfortable collaborating with through platforms like GitHub, GitLab.

CERTIFICATES

JavaScript v2.0 (09/2022 - 11/2022)
